

Design Project — Donovan Carmichael

Project: Mobile Design

Name of Client:

Terrance Tracy

Company's Name:

Know Me Mobile

Company Type:

E-commerce

Objective:

Know Me Mobile is a all in one application for each and every identification card you own. I plan to create a Mobile Application, as well as a Web Page that showcase the application for identity card holder for all your digital devices.

Target Audience:

Professionals, Military, Corporation Personnel, Office Members that are looking to refresh or build a more positive web presence that will retain the recurring traffic dealing with new customers.

Attitude:

- Interesting Presents
- Exciting
- Dynamic
- Professional
- Modern

Message:

To assist a local business rebrand, build, and populate a mobile application with a more solidified identify.

Deliverables & Format:

Mobile Application,
Sales Website, Advertising
Phone apk Download,
